

CLEAN VINYL MATS & SHAPES

1

VACUUM

Vacuum your mats or vinyl shapes to remove as much chalk and dust as possible.

2

SCRUB

Scrub the vinyl well with a cleaner like Truce Chalk Remover or All-Purpose Cleaner and a cloth.

TIP: avoid cleaners with bleach

3

DRY

Let air dry completely.

4

WIPE DOWN

Wipe down the vinyl with a wet towel or damp microfiber cloth. Repeat the process if necessary to remove all of the dirt and germs.

5

KEEP CLEAN

Consistently clean all vinyl products on a regular basis, and get everyone involved in cleaning!

FYI...

Following the CDC guidelines is recommended for cleaning, however continued use of disinfectant chemicals may reduce the life of the products.
