

B101- BUSINESS FOUNDATIONS COURSE

Member Clubs receive 3 free registrations for the B101 Business Foundations course. This introductory course covers valuable information including the scope and major components of our industry (instruction, education and child care, and entertainment!), an overview of the “Magic 8” business success components (overall management, marketing, people management, information management, financial systems, facilities management, risk management, and inspiration), how program managers fit into the system, and personal organization and effectiveness. The Level 1 course provides a great foundation for training current or prospective Program Managers.
